## Part B

### Problem 2:

1. IS-A, They all inherit from Duck, aka subtypes of Ducks
2. Has-A, The Duck has a reference to Quack behavior which makes it Dynamic
3. Has-A, The Duck has a reference to Fly behavior making it Dynamic
4. IS-A, The Duck types extend the duck class, inheriting its properties
5. IS-A, They inherit from fly behavior
6. IS-A, They inherit from Quack behavior
7. IS-A, Quack is a subclass of Quack behavior
8. IS-A, Squawk extends Quack behavior aka inherits it

### Problem 3
